

Working with Pathogen Genomes

16–21 January 2011

International Centre for Genetic Engineering and Biotechnology (ICGEB), New Delhi, India

A Wellcome Trust workshop providing training in the latest genome analysis software (Artemis and ACT) developed at the Wellcome Trust Sanger Institute Pathogen Sequencing Unit.

Programme elements include:

- introduction to genomics and Artemis
- de novo sequence analysis
- database and motif searches
- sequence analysis on a larger scale
- comparative genomics and Web-based resources.

There is no fee for academics and bursaries are available for travel and accommodation costs (awarded on merit).

The deadline for applications is **1 October 2010**. Full details at:
