

## 1<sup>st</sup> Post-EURASNET Symposium

“Regulation of Gene Expression through RNA Splicing”

March 24-27, 2012

International Centre for Theoretical Physics (ICTP) – Trieste, Italy

<b>Organizers</b>	Davide Gabellini (Milano) and Claudio Sette (Roma)
<b>Co-organizers</b>	Francisco Baralle (Trieste) and Juan Valcárcel (Barcelona)
<b>Speakers</b>	Luca Cartegni (New York), Adrian Krainer (Cold Spring Harbor), Reinhard Lührmann (Göttingen), Christian Muchardt (Paris), Benjamin Blencowe (Toronto). 30 talks will be selected based on submitted abstracts.
<b>Topics</b>	Chromatin, signaling, transcription/processing coupling, mechanisms of mRNA splicing and regulation of alternative splicing.
<b>Contact</b>	Meeting manager: Fabrizia Rossetti (Email: <a href="mailto:f.rossetti@fasiweb.com">f.rossetti@fasiweb.com</a> )
<b>Website</b>	to be prepared
<b>Deadlines</b>	Application and abstract submission: January 29 <sup>th</sup> 2012 Selection results announcement: February 13 <sup>th</sup> , 2012 Confirmation and registration from February 13 <sup>th</sup> to March 2 <sup>nd</sup>

It is our pleasure to invite you to participate at the 1<sup>st</sup> Post-EURASNET Symposium on “Regulation of Gene Expression through RNA Splicing”, on March 24-27, 2012 in Trieste (Italy). The Symposium is open to all members of EURASNET and their collaborators as well as to other scientists interested in the regulation of Alternative Splicing and RNA processing. In addition to plenary lectures from invited speakers, we will select presentations from the abstracts submitted to the Symposium. Emphasis will be given to discuss ongoing work in our laboratories and to set the ground for future collaborations and/or joint projects for EU grants calls.

A website with all information regarding the Symposium Program, Registration and Accommodation will be shortly available and posted as link in the EURASNET Scientists web page (<http://www.eurasnet.info/>).

Looking forward to seeing you all in Trieste next spring.
