

ICGEB Seminar

**Wednesday, 3 March 2010,
12:00 noon**

ICGEB Seminar Room
Main Entrance, "W" Building,
AREA Science Park, Padriciano 99, 34149 Trieste,
ITALY

Queta Smith
Associate Director,
Technical Communications,
Thermo Scientific Genomics,
Lafayette, Colorado, USA

***"Integrated RNAi Approach to
Small-Scale Functional
Genomics"***

During the last few years RNAi technology has evolved into a powerful tool routinely used in biological and medical research. We will review past and recent technology progression and highlight how to use recent innovations to improve the quality and reliability of your RNAi experiments

Hosts: M. Giacca/M. Mano
